COMPETENCES

- **C, C#, Java, SQL, Python, UML, Docker, UPPAAL, Android Studio**
- **SQLite, MongoDB, Salesforce, API, ASP.Net, Robot Framework, Cucumber, Laravel, Node JS**
- **Embedded Systems (Linux – buildroot - Domoticz)**
- **Electronic Circuit Programming & Analysis (Protoeus, Proton, ISIS, Multisim, MPLab, HFSS, ADS, Atoll)**
- **Network Configuration (Cisco Equipment) & Network Administration (Linux & Windows Servers)**
- **MATLAB Programming**
- **Network and Software Security Architectures**
- **Team Leading**
- **Teamwork**
- **Problem Solving**
- **Fast Learner**
- **Decision Making**
- **Strong Language and Communication Skills**

HIBA HNAINI

ENGINEER

DoB : 05/25/1995

EXPERIENCE

● **Groupe Renault, Paris-France | April 2018 - October 2018**

[Assistant IT Project Manager - Intern](#)

-Worked in the Digital Transformation Department (Renault Digital) with a project manager and a team responsible for creating a salesforce application (CRM) in an Agile environment
-Defined test cases for the salesforce application and then tested the application manually.

-Tested 2 selenium frameworks for flexibility and maintainability (Cucumber - Java - and Robot - Python - Frameworks)

-Decided which framework to use

- Developed and coded the tests using Cucumber Framework

-Updated Jira-Xray with the test cases, test results and bugs

-Defined 2 API yaml files used to connect Salesforce to a Web application

Tech : Java - Javascript - Python - Xpath - Cucumber Framework – Robot Framework – Swagger -Eclipse – Jira - xray -Agile

● **softweb, Beirut | July 2017 - September 2017**

[Web Developer - Intern](#)

Worked with the Web development team on a form management web application.

Create a NodeJs Notification Server for a Laravel (MVC - php) course management application.

Decided what plugin should be used to add the drag and drop functionality to the form creation/edit interface. (formBuilder)

Added the formbuilder and adapted it to the pre-existing forms data in the database.

Resolved problems between plugins.

Tech: Php – Javascript – HTML – CSS – Laravel – Nodejs – jQuery – Bootstrap – MySQL- MVC- Atom – phpMyAdmin -xampp

● **ClickRound Technologies, Saida -Lebanon | April 2016 - June 2016**

[Web Developer - Intern](#)

-Worked with the Web Development department on creating front-end and back-end codes

-Created reactive HTML pages

-Created pages connected to a database using php and ajax

-Created a blog interface and integrated it with the backend - team work

Tech: - HTML – CSS – Javascript – JQuery – Bootstrap – PHP – Ajax –MySQL

- Sublime Text Editor – phpMyAdmin

UNIVERSITY PROJECTS

- **Socket Programming- C (Client-Server communication to alter photos)**
- **Boat Surveillance System - Java (Client - Server) , Requirements Analysis, UML Modeling, Web Sockets, SOLID Principles, Agile methodology**
- **Web Login System (MeteorJS - MongoDB - npm packages)**
- **XML Parser and UI (Java)**
- **Compiler(python - Assembly - Hexa)**
- **Meta Model Mapping and Code Generation (Java - Eclipse - Run Composer - UML - Rhapsody)**
- **Metasploitable hacking (kali - Metasploitable Linux)**
- **Software SCADA Security Model (UML - Single Access Point - Ckeck Point - Security Manager - Signature)**
- **Document Management System and Code Generation (MeteorJS , Mongo DB)**
- **Embedded Systems (Cross Compiling - Raspberry PI - Linux - Domoticz - GPIO - gcc - curl - shell & python scripting - C language - buildroot - ssh - Docker)**

Ogero Telecom, Saida - Lebanon | August 2015 - September 2015

Network Intern

- Worked with the Telecom Networks Engineering team.
- Installed, maintained, and tested phone networks
- Handled network maps
- Acquired network grounding techniques
- Tech: Wifi –Ethernet – Microwaves – Grounding – Fiber Optics – VOIP- Internet Distribution- Switching – Mobile Networks

Orange Business Services, Beirut - Lebanon | July 2015 - August 2015

Network Intern

- Worked with the technical support team on CISCO equipment and client installations
- Manipulated the configuration on the CISCO equipment to recover maps of the network and Monitoring the network
- Tech : Wifi –Ethernet– VOIP- Internet Distribution- IPTV – Fiber Optics - Cisco Equipment – Orange CPEs – IPTV STB

EDUCATION

Engineering Degree

ENSTA - Bretagne, Brest - France | 2016 - 2018

École nationale supérieure de techniques avancées Bretagne, 3-year graduate and post graduate Engineering School and research institute located in Brest, France.

Specialty : Systems Perception, Information Decision Engineering – Systèmes logiciels et sécurité profile

Bachelors Degree

Lebanese University, Saida - Lebanon | 2013 - 2016

University Institute of Technology-Lebanese University- located in Saida, Lebanon.

Specialty: Communication and Computer Networks Engineering
Final Project: Android Application

LANGUAGES

Arabic
English
French

WORK SHOPS

CCNA 1 - CCNA 2 - ANDROID - ARDUINO - MATLAB
| 2016
