Senior Web Developer
5 years of experience

Work Experience

Web developer - Saint-Joseph University(USJ) – IT department– Ashrafieh, Lebanon *- Web developing using PHP (native PHP5 and CakePHP3), CSS3, Bootstrap, JavaScript, JQuery, Ajax, HTML5, AngularJS, Postgres and MySQL.*	Feb. 2014 – Present

I worked on the university web application including all the operational systems by developing projects from scratch and by working on already existing projects on the system.
My main tasks were:

- Developing projects on the web application of the university that includes all the operational systems.
- Contributing to the needs and the analysis of requests that are proposed for improvements.
- Defining the technical specifications and developing new applications for the different departments of the university.
- Ensuring the maintenance and improving the quality of the existing applications.
- Debugging various applications and working on its quality.
- Testing applications developed on the system to ensure they comply with the technical established specifications.
- Participating in the migration to the production server.
- Providing the necessary technical and functional support to users (receive requests, give solutions if necessary and transfer requests).
- Writing clear and organized documentation according to the standards related to an application.
- Giving trainings on new adopted tools and applications.

Web developer - D.E.S. s.a.r.l. / Elbarid.com s.a.r.l. – Furn El-Chebbak, Lebanon *- Web developing using PHP (CodeIginter and CakePHP), CSS, JavaScript, JQuery, Ajax, HTML and webservice using SOAP.*	June 2013 – Feb. 2014

I worked on:

- "Elsawt" which is a social media where you can post a text shout, an audio shout, a video shout and most of all you can live stream your videos to be seen by hundreds of thousands-elsawt.com
- "One click health shop" which is a website for a pharmacy-oneclickhealthshop.com
- "Elbarid" which is a Value Added Service Provider for Wireless Communication (VASW) focusing mainly on business SMS-elbarid.net
