Experience

Software Development Consultant – AUB Nature Conservation Center (NCC),
Beirut, Lebanon – Sep. 2018 to April. 2019

- Established a healthy and efficient **communication** workflow
- Set **milestones** for delivery
- Follow-up on the **development progress**
- Conduct regular platform **testing**
- **Manage expectations**

Senior Mobile Developer – Keeward Group,
Beirut, Lebanon – 2015 to Jun. 2018

- **Led the Mobile team on multiple projects**
- **Introduced and crafted an efficient development process:**
 - Identified team responsibilities
 - Developed new communication standards internally within the team and externally with other teams such as the QA, Backend and Design teams
 - Set Review checkpoints (Design and Code)
- Acted as replacement **project manager**
- Assumed the **scrum master** role multiple times: led sprints planning, backlog grooming, demoing and retrospectives
- **Mentored** and guided new members of the mobile team (Best practices, source control and team integration)
- Introduced **best practices** for iOS projects
- Researched, presented and introduced new technologies that the team uses now to streamline the development process, such as TextureUI and Protocol Oriented Programming
- Helped architect applications keeping in mind **scalability** and **sustainability** (ex. by switching to **MVVM** design pattern, determine components complexity & relations)
- Designed reusable components (Using Protocol-oriented and Object-oriented programming)
- Hand picked frameworks depending on app architecture (Networking, Threading...)
- Contributed to building **data efficient APIs**

Mobile Developer – Keeward Group,
Beirut, Lebanon – Nov. 2011 to 2015

- Developed multiple iOS Applications (Swift)
- Worked with frameworks such as: Cocoapods, Fabric, Crashlytics, Texture UI-Kit (Async Display Kit), MOYA, Google Analytics amongst many others.
- Developed and delivered a Point Of Sales Android application in less than 3 weeks, which was used in the Abu Dhabi International Book Fair

Technical skills

●●●●●

iOS applications: ObjectiveC - Swift - MVVM & MVC design patterns - Protocol Oriented Programming

●●●●●

Git

●●●●●

Scrum project management framework

●●●●●

Problem solving: Team - People - Software

●●●●●

Android applications: Java - kotlin - Android Architecture Components

Education	Computer Science - BS (2007 - 2011) Holy Spirit University Of Kaslik, Kaslik, Lebanon
Language skills	Fluent in Arabic, English and French Good in Spanish
Personal interests	Ecological awareness, Native herbs knowledge, Hiking, Playing Music, Reading, Skiing
