EXPERIENCE

Senior Web Frontend Developer   02/2023
NextCare
- Developed and maintained web applications using Angular framework v15
- Collaborated with cross-functional teams to gather requirements and translate them into scalable and efficient Angular code
- Collaborated closely with UI/UX designers to seamlessly integrate design elements from Figma into Angular applications
- Worked on a custom Angular library using Angular Material, focusing on reusable components to enhance code reusability and maintain consistency across multiple projects
- Resolved bugs and issues in existing codebase, ensuring application stability. Documented identified bugs, their causes, and implemented solutions for future reference and knowledge sharing
- Conducted regular code reviews, providing guidance and feedback to the development team to maintain high code quality standards
- Implemented accessibility features in the project to ensure compliance with web accessibility standards

Software Engineer   04/2020 - 01/2023
AiiA Solutions
- Worked on both frontend and backend parts using Python, Django, and Angular with more focus on the frontend part
- Implemented RESTful APIs and backend services using Django framework
- Led the development of a new angular application from concept to completion
- Mentored and assisted the junior developer in understanding the Angular architecture, best practices, and coding conventions
- Integrated Sentry, reducing error troubleshooting time by 50% for real-time exception reporting
- Worked on AWS S3 and Cloud Front services to deploy angular project
- Worked on AWS redshift service to store data from multiple databases
- Utilized AWS pipelines, S3, and cron jobs to automate data synchronization between MongoDB and Redshift

Software Engineer   10/2018 - 03/2020
Skyjunxion
- Developed and maintained web applications using C# and ASP.NET MVC
- Implemented backend functionality, including data models and business logic
- Worked as a productive and positive team member to code, test, report and debug operations
- Enhanced web functionality and performance by fixing bugs and introducing enhancements, resulting in a significant improvement
- Improved database efficiency by creating and optimizing SQL stored procedures, views, and functions

Web developer Intern   03/2018 - 05/2018
Monty Mobile
- Gained hands-on experience in web development using C#, ASP.NET MVC, HTML, CSS, and JavaScript.

EDUCATION

Bachelor's degree in Computer Science
Lebanese University
