

# ALI H. RAHHAL

INFORMATION TECHNOLOGY MANAGER

## PERSONAL PROFILE

I am an IT manager with wide knowledge and professional experience in networking as well as software development. I am highly qualified at server configuration (domain controller, active directory...) along with virtualization. I am knowledgeable in leading brands in highly competitive retail and automotive industries. I create and execute successful sales and marketing strategies that lead to profitable business growth. I am a dedicated and hard working person with a primary focus on exceeding expectations. I possesses excellent interpersonal, communication and negotiation skills, and I thrives in highly pressurized and challenging working environments.
