WORK EXPERIENCE

Front End Developer VML

06/2024 - Present

Lebanon

Achievements/Tasks

- Built a responsive static website for Mall of Emirates using Next.js, optimizing for performance and SEO.
- Developed a dynamic Next.js website for L'Oréal, integrating Google Sheets for seamless, real-time content updates.
- Optimized site performance and scalability using Next.js features like SSG and ISR.

Front End Developer(Remote) StarLake-ai

08/2023 - 06/2024

France

Starlake is an On-Premise and Cloud ELT/ETL Framework for Batch & Stream Processing.

Achievements/Tasks

- Implementing new features and enhancing existing ones.
- Conducted comprehensive code refactoring to enhance the maintainability and performance of the front-end codebase.
- Spearheaded the migration of a Next.js project (v9 to v12) and transitioned from Redux to Redux Toolkit, ensuring compatibility and improved performance.

Junior Front End Developer FLY-FOOT & The Padelist

11/2021 - 07/2023

Lebanon

Tasks

- Upgraded a legacy codebase, seamlessly migrating from React Native to Expo while implementing bug fixes and enhancements for optimal application performance.
- Managed API versioning, ensuring seamless compatibility with both older and recent versions.
- Successfully delivered on various project requirements, from conception to execution, ensuring timely feature additions.
- Executed web optimization strategies, resulting in enhanced application performance.
- Developed and maintained backend services using Laravel framework.
