Personal profile

Management information systems(MIS) graduate with a work experience in sales. My studies and my previous work experience have been in database management systems as i have learned how to use, manage, and analyze information systems to generate reports that are necessary for managers to make decisions that contribute to the success of a business. In addition, i have worked with teams to make projects as a member and as a team leader where i have gained knowledge and teamwork skills. I have good communication skills as i am bilingual in addition to working in sales previously which have enabled me to build strong relationships with people and customers. I am a motivated person that can work under pressure and i am currently looking to progress my career in a more challenging role where i can share my academic knowledge and experience.

Achievements and skills

- Around two years of work experience in sales.
- Worked as a private tutor and taught different school subjects and university courses like english, algebra, management and MIS courses, and other courses for students.
