## About Me

Born on June, 1993, I'm living in Beirut, Lebanon. I am a graphic designer graduated from AUST. I seek to dig deeper in the design field, build and gain more design skills. Throughout my life experiences, each day with practice and continuation I become more confident in the field that I work in, as well as I gain more knowledge and skills, and yet there are many new skills that I look forward to master. I am best specialized in branding, page-layout, rendering and illustrations. In addition, I am highly interested in character designing.

## Interests
