## SKILLS

- Object Oriented - Java/JavaFX
- Web Development- HTML/CSS/JAVASCRIPT/PHP/ASP.NET
- DataBase-Microsoft SQL Server/PhpMyAdmmin
- Imperative Programming- C Language
- Java EE/Java Servlets and JSP

## LANGUAGES

Arabic(Mother Language)
● ● ● ● ●

English
● ● ● ● ○

## SOFT SKILLS

- Team Wroker
- Creative
- Dedicated

## EDUCATION

### Study Program
**My New Collage**

*2015 – 2016*                                                              *Beirut,Lebanon,GPA=3.1*

*Courses*
- Life Science

### Study Program
**Lebanese University-Faculty of Science**

*2016 – Present*                                                                    *Beirut,Lebanon*

*Courses*
- Introduction to programming,Software Engineering,Operating System I,Operating System II,Graphical User Interface(javaFX),Data Base I,Data Base II,Mobile Application Development,Network I, Network II,Data Structure, Imperative programming(C),Parallel Programming,Advanced Logic Circuits,Server-Side Web Development,Computer Architecture,Logic Programming
- Object Oriented Programming Java,Intro to Image Processing,Computer Project Management,Computer and Society,New Generation Programming Language ASP,Numerical Analysis I,II,and III,Algebra I,II,and III, Statistic,Mechanics, Theoretical Computer Management.

## PERSONAL PROJECTS

### Hello Worker
- The System is designed for workers and clients both.Workers can find requests about a specific job and clients can find a worker for a specific work they need to be done.
- Coded with Javafx using Model-View-Controller pattern
- Database id done using MS SQL Server.

### University Registration System
- This System allows the admin to register,update and remove students and courses.The system create accounts for students in order to view their courses.
- Coded with java.
- Database is Done using MS SQL Server

### Clinic Information System
- This System will interest all people unconditionally and freely. Therefore,it permits users to register and access it and make interaction between them. The benefits of the Clinic Information System access to different physicians of specific specialties, access to accurate information about all patients in the clinic, spend less time spent on tracking down records and test results.
- Coded with ASP.Net Core technologies using Visual Studio
- Database is Done using EntityFramework/MS SQL Server

### Elderly Management System
- System provides the benefits of enhanced administration and control, well organized relation between staff, cost control, reports generation, medical prescriptions and scheduling. It can be used in hospitals and clinics.
- Coded with ASP.Net Core technologies using Visual Studio
- Database is Done using EntityFramework/MS SQL Server
