Pharmacy | Public Health | Health Information Management | Research | Volunteering

M.S.- level educated Pharmacy and Prospective Public Health Professional with proven leadership capabilities, who likes to take initiative and push toward new challenges. Having the necessary skills and qualities that would assist different health care related institutions looking for a change in product and quality management, research and development, and commercialization of innovative active pharmaceutical ingredients. Enthusiastic achiever with a solid background in pharmacology and therapeutics. Well-rounded, multilingual, culturally aware professional with a unique ability to relate to diverse populations with various backgrounds. Motivated continuous volunteer with technical knowledge of relevant issues which helped me perfect my soft skills, gain confidence and credibility to make a good professional impact. Committed to improving health-care life quality on the individual and public level.
