Personal Summary

I am a Senior Software Engineer, a FrontEnd Specialist, an Advanced Developer Program by Facebook for product managers leaders graduate, ranked in the top 5 learners out of 500 from Lebanon & Egypt, 1st from Lebanon.

I built a 9 years career in software engineering, front end emphasis liaising all kinds of relevant soft & technical skills to be a proficient professional.

I love to write code in a challenging environment with an emphasis on using best practices to develop high quality software that meets project requirements, budget, and schedule.

I enjoy learning new technologies and sharing findings with my colleagues.

I love to be creative and inventive.

For me, programming is an art form, and I always strive for making my code as elegant and clean as possible.
