PS Core Network Department

July 2015-August 2015

Overview of UMTS, SAE-LTE mobile networks and Huawei's equipment used in Base Stations.

PROJECTS

SENIOR PROJECT - ANDROID MOBILE APPLICATION FOR THE CCE DEPARTMENT

2016

As a team, we developed an android mobile application for the CCE department to facilitate the communication between the students and the department.

It features different user levels with actions dependent on the user type, mainly the user can be either an admin or a student.

The admin can create users, perform weekly schedules, post news, and edit/view his own profile.

The student can see news related to its department, view his grades and edit/view his own profile.

Following are the app screens developed:

Login – Profile – Grades – Schedule – News
