

Alaa Al Hariri

Koreitem • Beirut, Lebanon • Phone: 76692401 • E-Mail: aia31@mail.aub.edu

Objective

Highly focused Civil and Environmental Engineer looking for a challenging job position in a future oriented organization where I will be able to apply and develop my analytical, problem solving, and engineering skills.

Experience

Intern, Khatib and Alami

May-2017 - July-2017

- Attended the final stages of submitting the ABC Mall in Verdun to the client in which inspection, testing, and handover took place.
- Gained some experience on conflicts that might arise between the designer company and the contractor.

Intern, Resources and Environment Department Dar Al-Handasah (Shair and Partners)

May-2018 - July-2018

- Gained a strong background on infrastructure design. Design water supply systems, water drainage systems, and wastewater collection systems within the specified time frame and designated budget.
- Adhere to engineering principles and techniques when designing sanitary sewer and water systems under supervision.

Intern at Wael Kayyali (Civil Engineer/ Consultant)

August -2019 - Present

- Worked on planning and designing the rehabilitation of highways in Bekaa and Tripoli.

Education

BS in Civil and Environmental Engineering

2014 - 2019

American University of Beirut - Beirut, Lebanon

Skills

Technical skills: MS Office, planning and scheduling, report preparation, AutoCad, Revit, StormCAD, WaterGems, SewerCAD.

Behavioral skills: Achiever, problem solver, detail oriented, fast learner, perform under pressure, communicate effectively, and team player.

Languages

Fluent in Arabic and English.

Extra-curricular Activities

- A startup (E-ParkMeter) that attracted several investors but the corruption and political situation in Lebanon did not help.
- Final Year Project. Conducted a pre-planning and feasibility study on the conversion of Al Rayak Airbase to a low cost alternative to Beirut Rafik Al Hariri International Airport as a final year project.
- Children Cancer Center Lebanon. Participating and organizing fundraising events as well as weekly volunteering activities.

- **AUB Visitors Bureau.** Welcomed visitors to AUB from across the globe, and arranged several tours across campus making visitors knowledgeable about AUBs history and present.
- **Member of American Society of Civil Engineers club-AUB student branch.** Participating in the ASCE winter/summer camps where the mission is to do plastering and painting for certain areas within the monastery, doing dedicated volunteering work all over the country. Participating in multiple workshops hosted by the ASCE club.
