About the company:

Experts in Business Excellence with over 28 years of worldwide-experience and top 100 clients. Contributors to some of the world standards for certain Modeling Languages and Ontologies.

- Built activity models using MAP and business processes BPMN2.0

Ajwad

June 2014 – May. 2015

About the company:

Ajwad is The Lebanese Center for School Development.

Achievements:

- Research, building surveys and interviews, data collection (through surveys and interviews), data analysis

Training Experience

Tatweer Program – SHIFT

2018-2019

The program “**Tatweer**” targets women and men of all ages and educational backgrounds living in the conflict areas, who’d like to work on their existing small/medium businesses or start a new business.

- My contribution: I Gave Business plans supporting sessions to support the targeted SMEs in building their business plans.

On field research

A research conducted by RMTeam, in favor for NRC

(Refining analysis on barriers to education for Syrian refugees in Lebanon and identifying the factors that support school enrolment and retention)

Jan. - Apr. 2019

- Through qualitative interviews, I’ve collected data about Syrian refugees’ education status and challenges. Over a month, I’ve interviewed targeted parents, children, teachers and other stakeholders, using IDIs, KIIs and FGDs.

A research conducted for SHIFT

2016

- Built and conducted qualitative and quantitative survey all over Tripoli, to assess the market acceptance and capacity for handmade sweets

Projects

Tripoli Special Economic Zone (TSEZ)

Feb. 2017 – Sep.2018

- Support the team in building the different functions (Finance – Administration – Procurement) at TSEZ which includes developing activity models, processes and technical competency frameworks following Intelligile methodologies.

Volunteer Experience

Business Excellence Program - Intelligile

2015 - 2016

- As a part of Intelligile CSR program, I have participated in implementing “iii Business Excellence Program”, which objective is to inspire students on finding their passion and on helping them through coaching and mentoring to acquire several core competencies. The program invited more than 200 students.
