MARWA ABOU HAIDAR

Email:marabohaidar@gmail.com | LinkedIn: Marwa Abou Haidar | LEB/+96170064132

Objective:

Full stack web developer seeking a dynamic work environment to showcase skills and grow professionally. Bringing academic and professional expertise, I am dedicated, goal-oriented, and eager to contribute to your esteemed institution.

Experience:

FULL STACK DEVELOPER –ESA CODING_LAB | Nov/2023-March/2024

- Constructed a normalized database structure and utilized Figma for design purposes.
- Developed UML diagrams including Use-case, Sequence, and Class diagrams to illustrate system functionalities comprehensively.
- Employed agile methodology throughout the projects lifecycle to ensure flexibility and adaptability to changing requirements.
- Utilized GitHub for version control and collaborative development, facilitating seamless integration and efficient teamwork.

- **PROJECT 1: Social Media Website (GLOBAL IMPACT)**
  - Collaborated with a team to design and implement features, ensuring a seamless user experience. Implemented functionalities such as user authentication, posting, commenting, and liking.
  - Constructed the front-end layout and styling using HTML, CSS, and Bootstrap for responsiveness. Implemented dynamic features using JavaScript to enhance user interactions.
  - Utilized PHP for server-side scripting and MySQL for database management.

- **PROJECT 2: Ecommerce Website (IN-STYLE)**
  - Collaborated with a multidisciplinary team to design and implement various features, including product listing, shopping cart, and checkout functionalities.
  - Utilized React for building dynamic and interactive user interfaces.
  - Implemented server-side logic using Node.js and Express.js for handling HTTP requests and responses.
  - Integrated MongoDB for data storage and retrieval, ensuring scalability and performance.

- **PROJECT 3: Certificate Credential Platform (Zidyia Passport) in partnership with ZIDYIA**
  - The platform facilitated the issuance and verification of digital certificates, implementing dynamic forms and robust security measures.
  - Implemented front-end components and user interfaces using React, ensuring a seamless user experience.
  - Developed RESTful APIs using Node.js and Express.js for handling certificate-related operations.
  - Designed and optimized MySQL database schema for storing certificate data securely.

Instructor of Front -End and Back-End Web-Development PAA | 2022 -2024

- Led instructional sessions in front-end and back-end web development
- Guided the creation of dynamic web applications using frameworks and tools.

Web Developer – Internship GTonics | March/2019 - Sep/2019

- Cooperated with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Completed most programming and development tasks for front end public and internal websites as well as challenging back-end server code.

Education:

- Bachelor Degree in Telecom Communication Engineer (Lebanese International University 2015-2019:).
- ESA Coding Lab- Full Stack Web Developer
- ESIEE-IT FRANCE- Full Stack Web Developer
- CCNP Routing and Switching -New Tech Center

SKILL:

JAVA, PYTHON, HTML, CSS, JAVASCRIPT, BOOTSTRAP, Tailwind CSS, MySQL, PHP, Click-Up, UML-DIAGRAMS, UI/UX(FIGMA), MERN-STACK

LANGUAGES:

English-Expert | Arabic-Native Language
