Education

- Pursuing my Bachelor's Degree (Fifth year) in Mechanical Engineering, Expected Graduation: Spring 2020

Lebanese University, Faculty of engineering – Roumieh
- Baccalaureate Degree in General Science, Graduated: Spring 2015

Notre Dame du Mont Carmel – Fanar

Experiences

- **Design internship at Technica**
July 2019 - September 2019
 1. Performing training and tutorials on Inventor and CAD Software
 2. Designing 3D parts using Inventor
 3. Performing the assembly and execution drawings of assemblies
 4. Getting familiar with the mechanical design procedures
 5. Working on some R&D tasks related to Technica products
 6. Reading technical catalogues and learning basics of design for manufacturing
- **One day training at Zmerly Academy**
Overview at some heating technology including heat losses in buildings, types of boilers, radiators and control of heating system.
- **Manufacturing internship at Technica**
July 2018 - August 2018
 1. Executing parts in the manufacturing divisions as per the design execution drawings including lathing, marking, drilling, threading, cutting and bending.
 2. Take a general overview about CNC, laser cutting and welding activities.
 3. Helping in the assembly of mechanical and pneumatic components of conveyors and some other machines which are parts of a full automated system for carton and glass bottles lines.
 4. Preparing the factory noise map.

- **Part time waiter at Le Télégraphe De Belle-Vue, Bhamdoun**

July 2017 – Present

Provide high standards of customer services while sustaining high levels of proficiency in the field.

- **Member in Mechatronics Club**

Work effectively in the team and able to motivate other members to go extra miles and finish the task.

Core Competencies

- **Engagement:**

Able to engage directly into the system of work, commit to work in all aspects to provide a good service and maintain a strong reputation of the company.

- **Flexibility:**

Adept at handling multiple tasks on a daily basis competently and at working well under pressure.

- **Persuasive Communication:**

Allow to convey the message and influence the client. Furthermore, give full attention to what other people are saying, take time to understand the points being made, and ask questions as appropriate.

- **Punctual:**

Able to manage time and submit any type of projects within deadlines.

Computer Skills

- Proficient in MS Word, Excel.
- Excellent knowledge in Autodesk Inventor and AutoCAD.
- Good Working Knowledge in MS Visual Studio, C, C++, Database, VHDL, Matlab, HAP.
- Basic knowledge in HTML, CSS, JAVA Script.

Languages

- Arabic: Native Language
- English: Fluent (Speaking, Reading, Writing)
- French: Fluent (Speaking, Reading, Writing)
- Italian: Basic
