PROFILE

I am Lebanese-Italian, born on the 9th of January 1993 in Beirut, Lebanon.

I started learning programming at the age of 17 with DevC++ and fell in love with it. Programming is not only my profession but also my hobby and my passion, and I always enjoy a good hacking session.

WORK EXPERIENCE

Technical Consultant — April 2016-Present

Working as a Full Stack Developer, I specialize in Mobile App development (Native and Hybrid) and REST APIs, along with their Continuous Integration & Development pipelines.

I am also a mentor on [codementor.io](https://www.codementor.io)

Some projects:

- CI & CD Consultation & Implementation for Ever East Med S.a.l
- ISAM Lebanon by Ministry of Education, iOS and Android full development.
- Development Support for DAWLATI Project by OMSAR
- Development Support for Bank Of Beirut New Android Application.

Senior Developer, Saradar Bank S.A.L., Lebanon — July 2019-Present

I am leading a team in building multiple projects for the Bank and maintaining the Bank's mobile application. Our method of work is agile/scrum, and we focus on open source contributing and always being up to date on our stack.

Some projects:

1. Saradar Bank Mobile Application
2. Saradar Onboarding Platform

Developer, Saradar Bank S.A.L., Lebanon — July 2017-July 2018

Working as a Full Stack Developer in the Bank's Digital Factory

Some projects:

3. Online Banking Web Portal
 4. Personal Finance Manager
-

Software Engineer, eTobb SAL, Beirut/Lebanon — January 2015-March 2016

Worked in the Mobile Team as Team lead. My position revolved around developing the company mobile app using Ionic 1 and Angular 1, ensuring code quality is high and app performance is maximal. Also, I communicated with management when discussing new features and attended client meetings to better understand the requirements.

Software Engineer, EverTeam MEA, Naccache/Lebanon — July 2013-October 2014

Worked in the Professional Services Department. Position consisted of developing and customizing the company product to accommodate client needs and requirements. Traveled to KSA during summer 2014 to train and lead a team of 3 developers working on a LifeRay Solution for the Department of Income and Zakat in Riyadh, KSA.
