Intern

2016

Gravity Communication Agency (Damascus - Syria)

As an experienced graphic designer, I have assisted clients from all backgrounds and industries to design and implement thoughtful and impactful branding tools to help develop their businesses.

All of this is applied through being adept at listening to the clients' needs, then analyzing and implementing the best-designed solution.

The key lesson I learned through the past years was that the most important step to great design is first understanding why we need it.

Regarding the aspect of cooperation, I believe that my enthusiastic and team-oriented spirit gives me a great sense of communication and collaboration. This allows me to be an effective leader as well as a team player.

What i Do:

Make Music

Drink lots of coffee

Watch documentaries

Spend hours researching

What i Don't:

Sleep well

Believe in ghosts

Wash whites and colours together

Don't be hesitant to drop me a line, I'm always available for Coffee.
