QUALIFICATIONS

◦ As a security researcher:

- I found security bugs in Facebook as a part of Semicolon security team.
- <https://bugreader.com/mo@leaking-the-list-of-followers-for-any-facebook-page-22>
- I was certified by the **President of Lebanese University: Adnan El Sayed Hussein** in **2015** after reporting serious security bugs in **ul.edu.lb** main website and subdomains.
- Certificate Link: <https://uplody.com/cert/ul/>

◦ As a full stack web developer:

- I'm the full stack developer behind Bugreader, the first online cyber security hub as featured in press:

<http://annahar.com/article/981103>
<http://aitnews.com/tag/bugreader>

My Bugreader profile:

<https://bugreader.com/mo>

- I develop an **Online Medical Laboratory Management Information System (SmartLab)**, you can know more about it here:

<https://medicalek.com/smartlab/>

<https://medicalek.com/demo/smartlab/>

• For more projects, please visit my website: **<https://uplody.com>**

o *As a web team leader:*

• I'm the web team leader of Eduba, a very advanced school management information system developed by Semicolon & SmartWays (Iraq).

- **<https://eduba.app/>**

I always focus on making the smoothest UX / UI and high quality applications especially **single-page web applications.**

o *What I know, what I use to develop web systems:*

PHP, SQL (MySQL), JavaScript, CSS, Bootstrap, jQuery.

• LinkedIn profile: **<https://www.linkedin.com/in/mohammad-atwi-087643187>**
