Interest

- Learning Languages
- Music
- Video Games
- Hiking

Objective

- A passionate developer with a good ability to think through problems and develop innovative solutions. Currently a computer science student at Saint-Joseph University. Experienced with developing mobile applications and web applications. Looking forward to find an internship or a job in an ambitious company that values teamwork and can provide me with project development training.

Education

- Bachelor's Degree in Computer Science
September 2017 - June 2020
Saint-Joseph University, Mar Roukoz, Lebanon
- School
September 2003 - July 2017
Grand Lycée Franco-Libanais, Ashrafieh, Lebanon

Experience

- Software developer, Berytech
June 2019 - August 2019
Worked with a team of developers on a drone's software that analyzes a parking area and finds the numbers of empty spots. Developed a python program that saves the movement of the drone and analyzes pictures taken by the drone to find empty parking spots.

Projects

- Databases Measurement Tool : Web Application created using Django, HTML5, CSS and JavaScript that helps you find the fastest database for a given query.
- Let's Cook : Application created using Swift where you can create your own recipes as well as find multiple food recipes created by other users.
