WHO I AM

I've been a graphic designer for 9 years. Throughout these years I fall in love with graphic design and this relationship still continues. I learned new skills that can be translated into work and always looking for new things to inspire my designs. I am a creative, technical, and focused individual who is very organized has a problem- solving nature, and a can-do attitude even when working to tight deadlines. my skills not only cover creative design assets, as an information graphic designer, but also a keen eye for layouts and attention to detail. I define myself as a friendly and outgoing character who strives to create something new.
