ARABIC

ENGLISH

FRENCH

EDUCATION

Computer Science

Lebanese International University, Salim Salam

2016 – 2019

General Science

College Patriarcal, Beirut

2001 – 2016

EMPLOYMENT

Backend-Developer

Ecomz, Beirut

2019 – Present

- Developed and added a new translation module using Asp.net C#, Angular and SQL database.
- Integrated with third-parties APIs: loyalty programs, Kangaroo, Payments and shippers (Monty-Pay, Zood-Pay, Areeba, Network, BOB, Stripe, Tamara, Tap, Smart Pay (Bank muscat), DHL, Aramex, OmanPost, RedBox, Fastcoo, Wakilni, LibanPost).
- Troubleshooting and solving critical bugs and live issues that were affecting the client business.
- Maintaining and optimizing the existing features by applying OOPs best practices and SOLID principles.
- Improving the performance of the system by creating stored procedures for large data set instead of using entity framework.
- Worked in an agile methodology and collaborating with other team members in order to deliver projects on time.
- Participating in technical meeting with clients, and gathering requirements for new projects and integrations.
- Learned multiple design patterns that were implemented in the system (Abstract Factory, Builder, Singleton).

COURSES

NodeJS (Udemy)

Present

- Working with Express.js
- Working with Dynamic Content & Adding Templates (Pug file, Handlebars, EJS)
- Model View Controller .
- Dynamic Routes and Advanced Models.
- Working with NoSQL and Using MongoDB.
