Dear Sir/Madam,

With this letter, I would like to apply for the position of a Graphic Designer.

My major goal is to work for a respectable company with an excellent reputation within the advertising industry and among its clients. As a graduate student from the American University of Science and Technology (AUST) with a diploma from the State University of New York, I have acquainted myself with a range of skills that would allow me to blend with the organizational culture, and eventually contribute toward bringing your team to new heights of success.

I am an extremely motivated and enthusiastic person, seeking professionalism and productivity in daily work.

My ultimate objective is to obtain experience in the advertising sector, and at the same time I would like to pursue my postgraduate studies in Web Design and 3D MAX.

As you will find on my resume, I received relevant skills in different types of projects during my work period. These include Photoshop, InDesign, Illustrator, After Effects, 3D MAX, Adobe Fireworks, and many others.

Thanks to all the knowledge and experience I gained at university, as well as my personal work ethic and determination, I feel confident to be able to reach the heights of a corporate company successfully.

Please find my resume attached for your consideration. It will be my pleasure to be interviewed by you as soon as your time allows.

Sincerely,

Cyril Boustany
