[linkedin.com/in/mohammad--abdulaal](https://www.linkedin.com/in/mohammad--abdulaal)

## EDUCATION

**Islamic University Of Lebanon, Al Wardeniyeh, Lebanon — Bachelor in Civil Engineering**

NOVEMBER 2014 - AUGUST 2019

Represented the university's Basketball team in the local league.

## EXPERIENCE & TRAINING

**Olive Green Contracting, Sehla, Bahrain — BackOffice And Support Engineer**

September 2023-Present

- Spearheaded the preparation of LPOs for quotations, ensuring precision in invoicing and facilitating seamless communication with the account team for payment processing.
- Conducted meticulous comparisons of materials and services from various vendors, demonstrating keen decision-making skills to select the most cost-effective and quality-driven options.
- Implemented robust tracking systems for materials and services, focusing on quality control and adherence to LPO terms to guarantee optimal project outcomes.

**ITXI, Beirut, Lebanon — Software Quality Assurance Engineer Internship**

APRIL 2023-MAY 2023

- Collaborated with the development team using Jira for project management and issue tracking
- Utilized bitbucket for version control and code repository
- Demonstrated proficiency in writing robust and efficient automation tests using cypress

**informationSystemPlanet, Bahrain — Wordpress Software Engineer**

FEBRUARY 2022 - JUNE 2022

- Development expertise with custom post types, custom fields, plugins and themes for high-traffic Wordpress sites
- PHP and HTML, development outside of Wordpress for landing pages

## PROFILE

My immersion in civil engineering and construction has shown me all the incredible things that can be achieved through well-conceived and well-executed missions. I want to bring my engineering logic and software development skills together to build great programs.

## TECHNICAL SKILLS

**Programming (and Scripting)**

**Languages** // Python, HTML5, CSS3, JavaScript, PHP

**Database Management Systems** // MySQL

**Frameworks, Tools, and OSs** //

Laravel, React, Firebase, React Native, Selenium Python, Selenium Robot Framework, Node and express Js, WordPress, Gherkin, Cypress

**Theory** // MVC, Agile

Methodology (Jira Atlassian Experience)

## SOFTWARE QUALITY ASSURANCE

### SKILLS

Experience with software development lifecycle processes

Experience with testing embedded software

Ability to create test plans and analyze test results

Skilled in coding automated tests and documented test cases

Knowledge of agile development

## **SE Factory, Beirut, Lebanon — Cycle #12 Graduate**

MARCH 2021 - JULY 2021

Intensive full stack web development program covering cloud architecture, frontend and backend development, source control, web application security, in addition to soft skills, over 14 weeks of lectures, workshops, and projects.

## **Mirai Architecture and Engineering, Bahrain — Site Engineer**

JANUARY 2020 - DECEMBER 2020

- Inspected steel reinforcement and performed check-ups
- Supervised contracted staff workers

## **Albani For Engineering and Contracting, Lebanon — Site Engineer**

NOVEMBER 2019 - DECEMBER 2019

- Performed check-ups per specification
- Ran day-to-day management of the site

### **PROJECTS**

#### **Fin Bank — A Fintech banking platform**

A smarter way to manage your money in any time and any place. Seamless. Digital. Personalized.

- Frontend: built using React Native
- Backend: built using Laravel

processing and web-based testing applications

Ability to research new tools and testing processes

Skilled in interpreting technical and business objectives and challenges

### **CERTIFICATES**

SE Factory: The Foundations of Computer Science

Beirut Arab University Center for Professional Education: Etabs and Safe for designing the building with the foundation

### **HOBBIES & INTERESTS**

Reading, Football, Basketball, Travel
