SUMMARY

Approximatively two years as a blockchain developer in Lebanon

I am passionate about the potential of decentralization, as well as cryptography

Active member of the Lebanese Bitcoin community

COMPUTER SKILLS

Languages

- Proficient in: Python, Node.js, Solidity, Blockchain frameworks(mainly Ethereum)

- Familiar with: C++, React.js, Java, Golang

Software

- OS: Windows and Linux(Mainly Ubuntu and Parrot(OS)

- Docker (beginner level)

Methodologies

- Scrum and agile methodologies were used throughout both of my jobs

- Platforms: Jira, Confluence, GitKraken, BitBucket

EXPERIENCE

Blockchain Developer   Jul 18 – Nov 19

Vistory,Beirut Digital District https://www.vistory.fr/

- Worked with Geth and Node.js on a private blockchain

- Light native Android work

- Worked on computer vision for body recognition in C++

- All work was documented and done according to the Scrum framework

Blockchain Developer   Dec 19 – Apr 20

DecentraTech,Beirut Digital District https://decentra-tech.com/

- Studied the project requirements and built the blockchain architecture

- Hyperledger framework was used using mainly Python

- Light penetration testing was required

- Thorough documentation for each task

EDUCATION

American University of Science and Technology   Oct 2016 – Jan 2019

Achrafieh, Beirut

- Bachelor of Computer Science

- First prize in the computer science exposition at AUST in June 2019
