## Education

---

### American University of Beirut (AUB) - Computer and Communications Engineering Degree – Lebanon (Sep 2016 – Jun 2020)

- Final Year Project: Developed a chatbot for the American Insurance Co. Asurion LLC, that provides quick replies and automatic sentence completions for customers using neural network, and supervised learning algorithms
- Software Tools Laboratory: Developed the Snakes-n-Ladders software game using Qt framework that keeps track of users' performance via saved scores, levels, and personal accounts
- Database Systems: Developed a mobile application on Android OS for querying a pharmacies-chain database
- Computer Organization: Designed a hotel management system with an LCD display using programmable PIC16F84A microcontroller capable of keeping a log of different rooms' status

### Lycée Abdel Kader (LAK) - French Baccalaureate Certificate with Distinction – Lebanon (Sep 2010 – July 2016)

- Placed on the LAK honor list for 3 consecutive years (2014, 2015, and 2016)

### École Française Internationale de Djeddah – Saudi Arabia (Sep 2001 – July 2010)

## Experience

---

### Intern & Part-Time Software Developer at Murex – Information Systems Department – Lebanon (June 2019 – Dec 2019)

- Practiced agile concepts by developing 15+ automated tests for the PEGA and JIRA applications using Selenium, Cucumber and Java
- Implemented new elements for PEGA's front end by modifying the back end using SQL-like statements and a drag and drop interface

### Brand Ambassador at Careem Inc. – Lebanon (Jan 2019 – Jun 2019)

- Enhanced brand awareness and attracted 35+ new Careem users in Lebanon
- Participated in 15+ events around Beirut and contacted around 30 loyal clients for feedback and suggestions

### Intern at Phoenixia Intercontinental Hotel – IT Department – Lebanon (Dec 2018 – Jan 2019)

- Assisted the employees in solving several IT-related problems in the hotel (in rooms, restaurants, kitchens, offices)
- Learned hands-on networking skills such as the making of Ethernet cables and the functioning of the server room

### Youth Educator at Beyond Learning L.L.C – Loompaland Summer Program – Lebanon (June 2015 – Aug 2015)

- Responsible of a group of 15 kids aged between 3 to 5 years old and planned the program activities and outings

## Skills & Languages

- 
- **Technical Skills**: Microsoft Office (Word, PowerPoint, Excel), MATLAB, ModelSim (VHDL), MPLAB and SPICE
  - **Programming languages**: Visual C++, Python, SQL, PHP, Java (including Android App Development) and Web Development (HTML, XML)
  - **Languages**: English (fluent), French (fluent), Arabic (fluent), Spanish (intermediate) and Turkish (intermediate)
  - **Systems and Tools**: Microsoft Windows, Linux, GIT and Jenkins

## Extracurricular Activities

---

### Marketing Team Leader of the AUB Entrepreneurship Club – Lebanon (Feb 2019 – Jun 2020)

- Built the social media page, advertised the club, and attracted new members to the society

### Member at Large at IEEE AUB-SB – Lebanon (Aug 2018 – Jun 2020)

- Organized the club's annual SKI trip and the engineering faculty Gala Dinner (planned the activities and managed the reservations and logistics)

### Member of the Social Space Team at TEDxAUB Club – Lebanon (Aug 2018 – Aug 2019)

- Prepared icebreakers for the pre-talk events to facilitate the networking and socialization between attendees

### AUB Outdoors (Construction Team) – Lebanon (May 2017, May 2018 and May 2019)

- Assisted in the planning and execution of the AUB Outdoors (the biggest student-organized event in the ME.)
  - Constructed the ticket booth and maintained other key structures during the event
