

Farah El Agha

Front-end Software Engineer

farah.agma111@gmail.com | Github: farah111 | Beirut, Lebanon | +961 - 81259056

Summary

Coming from a Computer Science background, I enjoy crafting quality software solutions using cutting edge technologies for challenging problems while paying a keen attention to clean code principles and practices. I'm a strong believer in the potential of Software Development in optimizing and improving every other field.

Work Experience

Addenda-UAE— *Front-end Software Engineer*

March 2020 – May 2020

Insurance solutions on blockchain, Addenda uses distributed ledger technology (DLT) to streamline processes between insurance companies:
