## ABOUT ME

Mission-driven full stack developer with a passion for thoughtful UI design, collaboration, and teaching.

I've always sought out opportunities and challenges that are meaningful to me. Although my professional path has taken many twists and turns — from touring and recording artist, to employee of the Month, I've never stopped engaging my passion to help others and solve problems.

As a senior developer / Team lead, I enjoy using my obsessive attention to detail, my unequivocal love for making things, and my mission-driven work ethic to literally change the world. That's why I'm excited to make a big impact at a high growth company.

I want to make things that make a difference.
