

# Mohammad Jouhari

P.O Box 750 Abu Dhabi

Phone 055-6446422

E-mail : [Mohammad.Jouhari@gmail.com](mailto:Mohammad.Jouhari@gmail.com)

Nationality : Jordanian

Material Status : Single

## Objective:

Seeking a challenging position of Software Engineer (Backend Developer) in an environment where I will get an opportunity to use all my skills and knowledge of the field.

## Education

**2008-2012**

**American University in Dubai**

**Bachelor of Computer and Information Technology**

Concentration: Application Development for Commerce and Industry

**2004-2007**

**Al Mutanabi Governmental School- Abu Dhabi, U.A.E**

- Cumulate of Class 2008 Average: **96.2%**

## Working Experience

**April 22 2018 – Current**

**Emirates Development Bank**

### IT Analyst Programmer

- Responsible for designing, coding, testing, debugging and documenting in-house developed applications.
- Involvement in all the development life cycle phases as required. Responsible to provide post-go live support.
- Working with the IT Coordinators to support requirements gathering and analysis.
- Applications coding as set in the approved requirement specification document by the customer.
- Analyze, troubleshoot and resolve all applications related issues.
- Support change management process in code documentation.
- Sets up and supports all software testing.
- Assists in the release control process by supporting the systems administration team in the move of code from testing to production environment after completion and sign off on UAT.
- Responsible to adhere with all information security policies and procedures.

**October 8 2018 – March 22 2018**

**Alrowad IT Solutions**

### .Net Developer

- ASP.Net ASPX, MVC 5
- Writing maintainable code using .Net technologies and tools.
- Creation of site layout/user interface from provided design concepts by using standard HTML/CSS practices.
- Design and creation of relational database schemas.
- Maintaining Backend code with fixing bugs and adding new features.
- Do required changes to database schema.

**March 2015 -October 8**

**Sharaf DG- Dubai, U.A.E**

### **Junior Software Engineer**

- Responsible for planning, processing and performing all jobs in an efficient manner with no assistance from the supervisor
- Working closely with upper management.
- Design and develop programming systems making specific determinations about system performance.
- Responding promptly and professionally to bug reports.
- Review and repair legacy code.
- Expected to conduct system analysis and development, with limited support from professional staff, to keep our systems current with changing technologies.
- Analyze, design, coordinate and supervise the development of software systems to form a basis for the solution of information processing problems.
- Responsible for analysis of current programs including performance, diagnosis and troubleshooting of problem programs, and designing solutions to problematic programming.
- Responsible for developing new programs and proofing the program to develop needed changes to assure production of a quality product.
- Responsible for development of new programs, analyzes current programs and processes, and making recommendations, which yield a more cost effective product.
- Writes, edits, and debugs new computer programs for assigned projects, including necessary records and desired output.
- Tests new programs to ensure that logic and syntax are correct, and that program results are accurate; assists lower-level programmers with programming assignments.
- Document code consistently throughout the development process by listing a description of the program, special instructions, and any changes made in database tables on procedural, modular and database level.

### **Working Experience**

**May 2012- March 2015**

**Norq Solutions- Dubai, U.A.E**

#### **Software Engineer**

- Software Design Roles :
  - Design push and pull data interfaces using the latest web and data sharing technologies.
- Software Development Roles:
  - Develop software according to functional and technical design specifications.
  - Create efficient, scalable, reusable middle tier logic using ASP.NET Framework.
  - Create and design databases, views, stored procedures, T-SQL statements and user-defined functions of varying complexity with a best practices approach to keys, indexes and relationships in SQL Server 2008/2012.
- Maintenance and other roles:
  - Asset, troubleshoot, document, upgrade and develop maintenance procedures; Review code for potential performance issues.
  - Troubleshoot client problems both remotely and on site.
  - Participate in training customers.

**December 2009 – January 2010**

**Abu Dhabi Tourism Authority- Abu Dhabi, U.A.E**

#### **Temporary date entry**

- Interviewed tourists and managing data in the database

**April 2010 – May 2010**

**Abu Dhabi Exhibitions Center - Abu Dhabi, U.A.E**

#### **Exhibition Organizer**

- Event Organizing, Visitors registration

### **Skills**

#### **• Languages**

- Arabic (Fluent), English (Fluent)

#### **• Personal Skills**

- Fast learner, Organizational skills, ability to work under pressure, Problem Solving.

•

## • **Computer Skills**

- Good Skills in SQL Server 2012.
- Excellent skills in official ASP.NET frameworks like MVC, Web Form, Web Pages, and Web API.
- Good skills in C# Programming Languages.
- Good skills in PHP Programming Language using laravel framework.
- Excellent skills in JavaScript, including popular JavaScript libraries/tools like jQuery, jQuery Mobile, KnockoutJs, AngularJS.
- Good skills in design patterns including SOLID principles, MVC, Repository, Factory, Dependency Injection, Service Locator, Decorator etc.
- Good skills in HTML 5.
- Good Skills in Mobile Web Application Development (jQuery Mobile, Bootstrap, Responsive Design).
- Good skills in networking tools like Fiddler.
- 2 Years of experience in web development using ASP.Net Framework.
- Excellent in Code-Review.
- Excellent Skills in Bootstrap framework.
- Familiar with Facebook, Twitter, Google, etc. APIs.
- ASP.net development using Telerik components and AJAX technology.
- Knowledge of Software Engineering and UML Design.
- Knowledge of using HTML5 and JQuery on mobile development.
- Capable of handling software development project during the project phases: planning, analysis, design, implementation and testing.
- Very Good in Software Project Documentations.
- Visual Studio 2012 using TFS Microsoft product.
- Testing applications and reviewing code for bugs and errors, Code cleanup.
- Clearly understand and fulfill all client requirements through communications for developing software applications.
- Ability to collaborate with other team members
- An interest in keeping up to date with new technology
- Experience integrating web design with back end code
- Knowledge and experience of web usability and accessibility
- Excellent in Agile Development.

## • **Business Skills**

- Good Marketing and presentation Skills.
- Excellent communications skills

## **Professional Projects:**

- **Uae Camel Race. (ASP.Net Website, Cordova ionic, Sql Server).**
- **Shopex (Asp.Net Mvc 5, Asp.Net Web Form, Bootstrap 3, Sql Server 2012, ASP.NET Identity 2.0, AngularJs)**

Shopex a mobile app (Android, IOS) is a tool which help peoples to find the right product at the right time and at the right price. This app has a strong backend built with popular Onion framework in ASP.NET MVC 5. It has some html 5 stuffs which are built with AngularJs.

- **Sharaf DG Mobile App (Asp.Net Web Form, Bootstrap 3, Sql Server 2012,AngularJs)**

Sharaf DG is a mobile app (Android, IOS) is a tool which help Sharaf DG retailer sell their products online. The mobile application help Sharaf DG to show their store products online. Consumers can easily brows Sharaf DG products and check the availability of the products in the stores. Consumers can find the nearest store to them. Sharaf DG app also help sales people to know more about the products and improve their productivity to help consumers in the stores.

## **College Projects:**

- **Family Planet (jQuery Mobile, ASP.Net Web Form. SQL Server 2012. )**

Html5 with JQuery mobile application called family planet. It is family tree builder with social networking aspects like chatting, sharing family albums, and discussion.

## **Extra-Curricular Activities**

### **April 2010 AUD IT club, Vice President**

- Worked in the programing tutoring center in AUD.
- Participated in Khalifa college competition for developing mobile applications.
