Jaafar Serhal

Address: Lebanon, Mount, Kaifoun Phone: +961 3 069 781 E-Mail: serhaljaafar@gmail.com

LinkedIn Profile: http://linkedin.com/in/jaafar-serhal-a7622557/

Objective

I have a solid background in creating complex Website and IOS Applications. I can work independently and respect a deadline. I feel comfortable working with a good team of developers. I am passionate about the mobile marketing. I am a key guy that has the ability to work alone, or lead a team when the need arises.

Experience

Full Stack Developer@ BnI   April 2017 – current.

- Web development for various BnI Healthcare Web App in short and strict deadlines
- Used .Net Core and Angular 2-5
- Used Web API using POST, GET, PUT, DELETE requests.
- Coordinated change control, and incorporating all possible user requests and enhancements.
- Work on multiple Databases, schema and data.
- GIT, Visual Studio Team Service known as VSTS.
- Created a JSON universal and reusable interface for many uses (including Ajax calls, mobile/ tablets apps and browsers).

IOS Developer@ Approteam   Dec 2015 – March 2016.

- Used Native Swift & Objective-C state-of-art mobile applications for iOS.
- Used Http (Rest Service) using POST, GET, PUT, DELETE requests and handling JSON response.
- Responsible for general maintenance of application library and debugging.
- Tested applications on device simulators and actual devices to fine-tune products.
- Used IOS POD for development re-usability purpose.
- iOS Persistence and Core Data.
- Distributing an App (preferably for an app on the App Store and Ad-Hoc)
- Cocoa Touch.
- Interface Builder & Auto layout
- Git , GitHub and bitbucket

Senior Web Developer@ Approteam   Mar 2015 – Dec 2015.

- Web development for various websites in short and strict deadlines.
- Created Hotel Management System using .Net and Microsoft SQL Server.
- Developed Real Estate Management System Using MVC .Net and Microsoft SQL Server.
- Used Google Maps API for showing the location of a real-estate.
- Created a modern responsive interface using HTML5, JQuery and CSS3.

Web Developer@ 2pure   **Sep 2012 – Aug 2015.**

- Web development for various websites in short and strict deadlines.
- Responsible for search engine optimization for the company major and front websites.
- Database Revamp example www.justfood.nawa3em.com
- Coordinated change control, and incorporating all possible user requests and enhancements.
- Worked on the user experience to decrease the bounce rate and increase average time spent by user on the site.
- Created a JSON universal and reusable interface for many uses (including Ajax calls, mobile/ tablets apps and browsers).

"Jaafar is professional, reliable, and always has a friendly response. He is experienced in iOS development and seeks different ways to satisfy clients. I would recommend Jaafar as aside from his experience, he is flexible and easy to work with which were very important factors for us."
— **Tamara Irshaid**, was Approteam client

"Jaafar played an exceptional role in developing the web platform and backend components of our Qubify solution. He's a hard working individual and is knowledgeable about the technical aspects needed in developing our system requirements. He has always provided high quality work with minimal delays, making sure that we are more than satisfied with his deliverables. It is a pleasure to work with Jaafar, and we will continue doing so in our future endeavors. "
— **Nathalie Chamaa**, *Co Founder, Qubify*, was Approteam client

"Jaafar was responsible for a big and essential part of our project. During the development of our website, admin and merchant protal, jaafar showed great responsibility and commitment to the project and the team and i would work with him on future projects and i would recommend him for any task you have for him. "
— **Ali Sayed**, *Co Founder, Qubify*, was Approteam client

"Jaafar is one of the best among all people I have ever met and is a loyal colleague, understands complex matters. Jaafar is a strong and goal oriented team player; with every problem there was a solution. Highly recommended."
— **Ali Noureldine**, *Senior Web Developer, 2pure branding agency*, managed Jaafar at 2pure

"Jaafar is a talented developer, quick learner and ambitious. I am so glad that I got the opportunity to work with him in the same team"

— **Elie Abi Saab**, *Senior Web and Mobile Developer, Everywhere*, worked directly with Jaafar at 2pure
"I highly recommend Jaafar for employment. He is a team player and would make a great asset to any organization. "
