Soft Skill

- Observation
- Decision making
- Communication
- Analysis

Education Background

The Open University of UK. Bachelor in Information Technology & Computing Cisco Certificate (Routing & Switching)

CIS Innovation Hub - advanced intensive training course (Fullstack Web Developement)

Achievements

2019 – 2022	Achieved some projects to boost my career and for business purposes
2021 – 2022	Established my own online business

About Me

I am a dedicated Computer Science graduate and a self-taught programmer, deeply committed to pursuing my passion in this field. I firmly believe in the power of individuals to carve their path to success by actively seeking opportunities, continuously expanding their knowledge, and maintaining unwavering self-assurance, all while amassing valuable experiences.

Experiences

Codi Tech | Fullstack Web Developer
2019 – 2021

Self-learner and technology enthusiast.

Proficient in HTML5, CSS3, and JavaScript for frontend development with familiarity in OOP languages and modern online tools

Proficient in ReactJS with React Hooks, using modern libraries like Bootstrap, Reactstrap

Backend expertise in Node.js (Express) and PHP.

Good knowledge in SQL with hands-on experience in managing and querying relational databases, including SQL Server and MySQL.

Capable of building UX-UI widgets

Skilled in WordPress theme customization and working with page builders (Elementor & Divi).

Experienced in project management, following Agile and Scrum methodologies

Adaptable to remote work environments with a strong focus on following instructions and delivering high-quality results.

Experiences

Blue Edge | Frontend Web Developer
2022 December – 2023 June

Frontend Development:
- Developed and maintained responsive web applications using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and optimal performance.
- Implemented modern frontend frameworks (React.js) to create dynamic and interactive user interfaces.

User Interface (UI) Design:
- Collaborated with the design team to translate wireframes and mockups into pixel-perfect user interfaces.
- Ensured consistent and intuitive user experiences throughout the application.

Mobile Responsiveness:
- Optimized web applications for mobile devices, ensuring seamless user experiences on various screen sizes.

Performance Optimization:
- Conducted code reviews and implemented performance improvements to enhance page load times and overall site performance.
- Utilized tools like Lighthouse or PageSpeed Insights to analyze and address performance bottlenecks.

Cross-Browser Compatibility:
- Tested and debugged applications to ensure compatibility across different browsers and devices.

Version Control:
- Utilized version control systems (Git) to manage code changes and collaborate with other developers effectively.

Bug Fixing and Troubleshooting:
- Identified and resolved frontend-related bugs and issues promptly, minimizing disruptions to the user experience.

Continuous Learning:
- Stayed up-to-date with the latest frontend technologies, trends, and best practices, actively incorporating new knowledge into projects.

Team Collaboration:
- Collaborated with cross-functional teams, including designers, backend developers, and product managers, to deliver high-quality products.

Project Management:
- Successfully completed projects within agreed timelines and participated in agile development processes (Scrum and Kanban)
