- <https://stackoverflow.com/users/9576638/dcodes>

- ✚ I am eager to find an opportunity that will let me use my knowledge on ground.
- ✚ Improvement is a permanent goal.

➤ Education:

2017-06– graduated: - Al-Bayader School, Lebanese Baccalaureate in Life Science

2020-06– graduated: - Beirut Arab University, Computer Science-Minor Mathematics, BS

➤ General Languages:

- _ English
- _ Arabic
- _ French (Junior)

➤ Traits:

- _ Hardworking
- _ Ambitious
- _ Detail oriented
- _ Team worker

➤ Skills:

- _ Java
- _ C++
- _ C#
- _ Python
- _ Dart
- _ PHP

- _ JavaScript
- _ JQuery
- _ Ajax
- _ SQL
- _ MySQL
- _ MVC
- _ Firebase Basic Knowledge
- _ .Net Core Framework
- _ .Net MVC Framework
- _ Flutter Framework
- _ Data Structures
- _ OOP
- _ Assembly Language Basics
- _ Software Engineering Basics
- _ Penetration Testing Basics

➤ Certificates :

- _ **IC3 certificate**
- _ **LCPC**
- _ **ACPC**
- _ **Web Development I at IDS-Lebanon**
- _ **Cumulative GPA 3.96**

➤ Interests:

- _ Machine Learning & Artificial Intelligence
- _ Cyber Security
- _ Software Development
- _ Mobile Development
- _ Information Security Analysis
- _ Web Development

- Experience: 15 months of Web Development I & Senior Project (Web & Mobile) Internship at IDS (Integrated Digital Systems-<https://www.ids.com.lb/>).

➤ Additional Activities

– **LCPC (Lebanese Collegiate Programming Contest) 2018-2019**

I competed among contestants in the LCPC held at the Lebanese University and Beirut Arab University.

As a representative of my college, my colleagues and I had to solve as much programming problems as possible in a limited duration of time.

– **ACPC (Africa and Arab Collegiate Programming Championship) 2019 Contestant**

– **Web Development Major Projects**

❖ *Infinite Health(Found on my Github)*

The website aims at:

- Enabling people to have an easier access to healthcare service online and free.
- Facilitating medical help to patients who require daily care or those who cannot visit a clinic regularly (elderly people).
- Enhancing job opportunities for medical graduates especially youngsters (fresh graduates).
- Main tools: PHP and JavaScript.

Some Self-taught Functionalities:

- JQuery functions used to build filters.
- Facebook plugin in the contact page used for adding reviews about the website and other opinions.
- OOP concept embedded in the admin page.
- Md5 hashing for securing passwords.

❖ *AlwaysEmployed*

- During my IDS internship, I developed a responsive web application that allows people, especially the uneducated, to find jobs and train to improve their skills at available charity organizations.

Special Features:

- ➔ *JQuery Datatables*
- ➔ *Gmail SMTP – (Reset Password-Forget Password-Registration Confirmation)*
- ➔ *Paypal-Visa Donations Form*
- ➔ *ASP.NET Core Identity, MVC framework*
- ➔ *SQL Server*
- ➔ *C#*

– **Mobile Development Major Projects**

❖ Senior Project

Social mobile-web application that introduces people to hidden places around the world with user posts functionality, messaging, connection requests, and other user activities. (Basic Tools : Flutter Framework, SQL DB, Firebase, C#, .NET Core Identity)

➤ Social Activities

– **Public Speaking Contest**

Participated as a contestant in a major school event “Be an Inspiration”.

– **Andalusia Culture Representative**

Chosen to represent a city of the Andalusia culture to a variety of audience and judges in school.

– **CodeX Club Member (BAU Computer Science Club Member)**
