## Personal Summary

---

As a highly-motivated and responsible scout Chief at NDL, I have a proven track record of providing exemplary levels of leadership and problem solving skills. Being part of this NGO for over 14 years, I have acquired patience, resilience and communication skills that help me fit into most environments. Self-driven to learn since my childhood, I was able to achieve academical success throughout school and university. And as a Computer Science student, who has been interested in programming and the security field since the age of 12, I would like to find a position that would challenge my knowledge and experience in this domain.

## Work experience

---
