EXPERIENCE

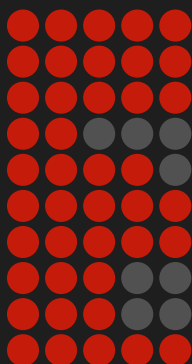

- **CV - Web Development read only if interested on more experience** **Freelancer**
web developer
i made a great web asp .net core mvc application for taking a company's workers' attendance code without database schema on the link : github.com/tmdr/attendancepage. And i am working on the final project of the university's third year on a webpage of a lab attendance page for the university, where taking the attendance is secure by reading a qr code auto generated by the program plus the scheduling on the reminder, this project is in asp.net core webapi for backend and in angular 7 for frontend and mysql considering the database. Of course learned the PHP on university and always preferring webapi and mvc

android developer
for android i finished the well known book Android Programming: The Big Nerd Ranch Guide by Bill Phillips, Chris Stewart and Kristin Marsicano . And you can check a game that i called CoronaGo here <https://drive.google.com/file/d/16ku3XtCz0B53Qep05IRwisGF-dBy5LKm/view?usp=sharing>. I made a navigator app that lets you save a location, then gives you the ability to head to this location later by giving you the direction to it you can check it here : <https://drive.google.com/file/d/16yMGuL0GSfQ8qXsHHKsT3vY2yh6SgVYa/view?usp=sharing>. And finally a student attendance app used by a doctor in a certain course you can check it here : https://drive.google.com/file/d/16pfsXHc8wSSJ7TfUZDEqrwdx9hbU6_vH/view?usp=sharing.
