Feb 1, 2022

Dear Sirs,

Thank you for taking the time to review my resume. I am interested in the internship position advertised. My resume is enclosed for your assessment. Given my related experience and excellent capabilities, I would appreciate your consideration for this job opening. My skills are an ideal match for this position.

My major has introduced me to a variety of fields that I found myself passionate about, from software engineering, programming, databases, operating systems, to many others and this passion helped not to only succeed but learn from the experience.

Throughout my undergraduate years, I was able to gain a wealth of theoretical and techinal competance that made me more thirsty for knowledge, which I found your program most perfect to aquire. More specifically, the foundation of softwares and the deep learning whill I aim to pursue a research in. Since my early days at the university, I was able to develop many skills which later on I found it fundamental to achieve my scientific goals. Skills that I applied in my day to day tasks as a programmer, like algorithmic thinking, problem solving, skeptical thinking… Along with our University being the most challenging in the country, it has shaped my pesonality to face hardships and never surrender to my weakness.

I am currently pursuing a Research Master Degree at the Lebanese University and would like to expand my learnings, especially in the world of computing and research. This will be a great chance to increase my knowledge and show my capabilities where I'll be able to show my excellent interpersonal and communication skills.

I hope you will find that I am qualified for the position you are trying to fill. Please let me know, If I can provide you with any further information on my background and qualifications. I appreciate your taking the time to review my credentials and experience. Again, thank you for your consideration.

 Sincerely,

Hussein Fawaz

About Me

An ambitious and hardworking student eager to work in an environment which encourages me to succeed and grow professionally where I can utilise my skills and knowledge appropriately.

Education

Lebanese University

2021 –
MS Computer Science
Faculty of Sciences

2018 – 2021
BSc Computer Science
Faculty of Sciences

Experience

CloudGate Consulting

February 2022 –
Frontend Engineer

November 2021 – January 2022
Internship
Frontend Development

Computer Science Club

2018 – 2022
Research Cabinet Member
A member of the CSC club in the Lebanese University, where I was the main researcher, article writer and also website developer.

2017 – 2020
Private Tutor
Tutored high school and also University students in Informatic Courses which include C, Matlab, and Java.

Academic Projects

CruDesign

November 2021 – December 2022
A webapp used to perform all CRUD operations, using latest technologies, of which include ReactJs, AntD, MongoDB.

BetterHelp

June 2021 – September 2021
A webapp built using Angular and NodeJs, to help municipalities in organising donations and better distribution to families in need.

LUDMS

December 2020 – January 2021
Dormitory Management System
Using JavaFx, MVC , MySql and SceneBuilder to build an online management system, with a full design architecture and database.

Technical Skills

C / Data Structures / Python
Java OOP / JavaFx
Android Mobile Development
Computer Networking
Database : MySql / MSSql/MongoDB
Matlab / Image Processing / Unity
Web: Html / CSS/ Javascript/ PHP
ASP.Net / Angular / NodeJS / ReactJS/ AntD

Languages

English Fluent
French Intermediate
Arabic Native

Interest

AI/Machine Learning
Software Engineering
Graph Algorithms
Neural Networks

Github

github.com/husseinfawaz20

Medium

medium.com/@hussboy777

Certificates

Machine Learning Certificate by Stanford University from Coursera.

Introduction to Python Certificate by Michigan University from Coursera.
