- React Project

FNC - Federal National Council of the United Arab Emirates – UI Developer
- Angular Project

HRDF - Human Resource – Mobile UI Developer
- React Native Project

SKILLS

Extensive Experience in UI and Web Development:

- Proficient in HTML, CSS, SCSS, Bootstrap, JavaScript, TypeScript, AngularJS, ReactJS, React Native, Ionic.
- Expertise in developing responsive, semantic, and accessible web applications.

UI Design and Development:

- Skilled in creating mockups, new interaction models, and intuitive navigation schemes.
- Strong understanding of design principles and user-centered design.

Code Quality and Best Practices:

- Write clear, maintainable, and well-documented code.
- Apply best practices for version control using Git.
- Experienced in code reviews and collaborative development environments.

Responsive and Accessible Design:

- Deep knowledge of building responsive layouts that work seamlessly across devices.
- Committed to developing accessible web applications that comply with W3C standards.

Performance Optimization:

- Expertise in optimizing web applications for maximum speed and scalability.
- Proficient in tools and techniques for performance monitoring and improvement.

Cross-Browser Compatibility:

- o Ensuring compatibility and smooth performance across various browsers and platforms.
- o Conducting thorough testing and debugging to maintain consistency.

JavaScript Frameworks and Libraries:

- o Extensive experience with modern JavaScript frameworks and libraries.
- o Proficient in integrating APIs and third-party services.

Cloud Platforms:

- o Experience with Microsoft Azure for deploying, managing, and scaling web applications.
- o Familiarity with Azure services such as Azure App Services, Azure Functions, and Azure DevOps.

Collaboration and Communication:

- o Well-developed communication skills, both written and verbal.
- o Experience working in agile development environments.
- o Strong ability to convey technical concepts to non-technical stakeholders.

Continuous Learning and Adaptability:

- o Enthusiastic about keeping up-to-date with the latest trends and technologies in web development.
- o Quick to learn and adapt to new tools, frameworks, and methodologies.

Problem-Solving and Analytical Skills:

- o Strong problem-solving skills with the ability to troubleshoot and debug complex issues.
- o Analytical thinking to develop efficient and innovative solutions.
