Summary

Enthusiastic and results-oriented Software Developer — Frontend focused, with a specialized focus on React.js and Next.js, bringing over 2 years of hands-on experience in crafting dynamic and responsive user interfaces. Throughout my career, I've been immersed in the complete project lifecycle, from ideation and design to robust implementation and seamless integration.

My expertise lies in leveraging the power of React.js, Next.js and Nest.js to build scalable and high-performance applications. Additionally, I have been expanding my knowledge in cloud computing, specifically Microsoft Azure, and have successfully completed the AZ-900 and AZ-104 certification, and AZ-400 currently in progress.

Skill Highlights

- **Frontend:** React.js/ts, Next.js, Tailwind CSS, Redux Toolkit.
- **Backend:** Node.js, Express.js, Nest.js
- **Mobile Development:** React Native
- **Database:** PostgreSQL, MongoDB
- **Authentication & Security:** JWT, AWS Cognito, AWS Amplify
- **Programming Languages:** TypeScript, JavaScript
- **Version Control:** Git
- **API Development:** RESTful APIs, GraphQL
- **Cloud & DevOps:** Azure (AZ-900 certified, AZ-104 and AZ-400 in progress)

Experience

Front End Developer

I-Aim Solutions — 01/2024 to 11/2024

- Developed responsive and dynamic user interfaces using React.ts and Tailwind CSS.
- Collaborated closely with designers and backend developers to implement user-centric features.
- Improved performance and load time by implementing dynamic imports and code splitting.
- Participated in daily Agile stand-ups and sprint planning meetings.
- Integrated third-party APIs and services securely and efficiently.

Experience

Full Stack Developer

ESDT — 09/2022 to 01/2024

- Developed a Jewelry Management System application using the MERN stack and Redux.
- Refactored the system using Next.js and Nest.js, enhancing SEO, scalability, and maintainability.
- Implemented secure authentication using AWS Cognito and JWT.
- Migrated database architecture from MongoDB to PostgreSQL for better relational data handling.
- Built and consumed RESTful APIs and integrated GraphQL for more efficient data querying.
- Led unit testing and debugging to ensure application stability and reliability.
- Deployed applications using AWS Amplify and managed environment variables and secrets securely.

Certifications & Learning

- Azure Fundamentals (AZ-900)
- Azure Administrator Associate (AZ-104)
- Azure Designing and Implementing Microsoft DevOps Solutions (AZ-400) – **In Progress**
- Continuous learning in cloud computing and DevOps practices.

Education

MBA: Management Information System 2017 - 2019

Lebanese International University

GPA: 3.25/4

BS: Management Information System 2014- 2017

Lebanese International University

Languages

- **Arabic:** Native
- **English:** proficient

Strength

- Great Communication Skills
- Leadership Skills
- Research Oriented
- Ownership
- Flexibility
