### ABOUT ME

I am a 31 year old Visual Designer in quest to work in my field of study (Graphic/Digital Design & Media). I am searching for a more challenging and motivated environment that can help me explore different aspects of design, aside from the business approach I have experienced at Bank Audi for nine years. I also began my freelance journey ten years ago to keep intouch with the digital part of my Major. I have also acquired a Teaching Diploma, as I was inspired to teach others the knowledge & experience I have gained.
