Did a rotation between three different departments:

- Reinsurance
- Life and Medical Insurance
- Planning and Investment

Gen Re - Downtown

Project trainee 05/02/2020 - 31/08/2020

"Group Life Pricing and Empirical Data Analysis"

The aim of my thesis was to find a better model in calculating the credibility factor for Group Life policies. I worked on several models and ended up finding a better one than the current model used by the company. In addition, I did many quotations and prepared their offers. I also tested their new online tool and reported the issues found to the IT department.
