INTRODUCTION

Results-driven and tech-savvy Angular Developer with 3 years of experience in crafting modern web applications. Demonstrates deep knowledge of Angular frameworks, coupled with a meticulous attention to detail and robust problem-solving abilities. Adept at working both independently and in collaborative team environments, utilizing Agile methodologies to deliver projects that exceed client expectations.

EXPERIENCE

ITXI   2021 – Present
Software Engineer   *Beirut, Lebanon*

- Developed complex and highly scalable applications using Angular for high-tier air transport communication companies, following the agile Test-Driven Development (TDD) methodology.
- Achieved up to 50% improvement in performance and efficiency by optimizing web applications through various techniques.
- Maintaining RxJs practices along multiple projects and advocating the use of operators through code reviews.
- Documenting & Implementing Unit Testing Code using Karma.
- Consuming RESTful API and coordinating with back-end teams.
- Implementing State Management Solutions through Subjects or NgRx
- Mentored and coached new team members, emphasizing the importance of writing clear and optimized code and providing guidance on CI/CD methodologies and tools.

Freelance Development   2020 - Present
React Native & Angular Developer   *Beirut, Lebanon*

- Developed scalable applications using React Native and Angular for local Clients.
- Strategically planned and executed the integration of a third-party API and implemented state management using Redux.
- Created and deployed custom reusable components, enhancing development speed and code consistency.
- Hosting and maintaining LMS Solutions on virtual private servers, along with domains.
- Translated client objectives into detailed technical specifications to facilitate streamlined development and to ensure alignment with customer expectations.
- Leveraged Firebase's real-time database and authentication services to streamline backend infrastructure, resulting in more efficient data synchronization and enhanced user authentication security.

iQuad Learning Solutions   2020 - 2021
Software Engineer   *Beirut, Lebanon*

- Lead Development on e-learning platforms using Angular 11+
- Implementing wire-frames using CSS framworks such as Bootstrap and Bulma.
- Improving web applications performance up-to 60% through modularizing components and lazy-loading components.

EDUCATION

Lebanese American University   Beirut, Lebanon
BS in Computer Science   *2020*

TECHNICAL SKILLS

Languages: Typescript, JavaScript, Java, HTML/CSS, Typescript, C#, Swift
Frameworks: Angular, React Native, NestJS, Xcode
Services: Firebase, GCP
Developer Tools: Git, Docker, VS Code, Visual Studio, Xcode, Confluence, Jira
