### CREATOR OF THE RECYCABLE BAGS IN AFDC ORGANIZATION

Objective: Persuading and spreading the information on the extreme importance of these bags in our current times specially with the increased global warming.

Achievement: The recyclable bags are successfully accepted and used due to the noticeable change that happened on the village level. People started using these bags instead of the plastic ones, they even started designing their own bags, some people started their own small business to sell such eco-friendly products.
