Dbayeh, Lebanon 📍

I am a current Software Developer who focuses on upgrading the UI for the ATMs. I have had experience in both the development side and sales side of software. I understand how to deal with clients and to deliver high quality products on a timely schedule. I also have experience in all phases of product development from planning and requirement gathering, to implementing and testing. I am currently looking for a position that would allow me to create new software and apps with my innovative ideas.
