Summary

A highly motivated student seeking a challenging position in a well-respected and reputable organization with an opportunity to contribute to the achievement of its strategic objectives, learn to develop my abilities and skills, as well as gain valuable experience in a positive, stable, and a dynamic workplace. I am pursuing to exploit my promising capacities effectively in the field. Open and ready to be trained for different tasks.

About Me

Self-taught Swift programming language for iOS development during my final year project at the university in the course of COVID-19 quarantine. An auspicious fresh graduate with high potential seeking a new beginning throughout the financial crisis and political corruption in my country. Currently working as a Surveillance Security Operator for Property Management Consultancy at Rive Gauche Tower to earn a living.
