## OBJECTIVE

I am looking for an opportunity as a frontend developer to expand my experience. Additionally, I aspire to contribute to the company's future growth by bringing in my professional expertise and progressive management skills. In return, I hope to advance in my career as I add value to the organization.

## CAREER SUMMARY

### ASTUDIO

#### Frontend Developer

Dubai, U.A.E

March 2023 till August 2023

- Developed a CRM website as a Frontend Developer using Next.js, Tailwind CSS, and contextAPI.
- Created key features like a robust timesheets table for task tracking and dynamic profile pages for efficient data handling. My contributions included integrating forms, tables, and enhancing user experience by addressing bugs
- Collaborated with the backend team for seamless data flow and system integration.

### FREELANCE

#### Frontend Developer

September 2022 till Present

- Integral member of Astudio's frontend development team, instrumental in successfully delivering projects.
- Developed and maintained visually appealing web applications using Next.js and Tailwind CSS, ensuring responsiveness.
- Collaborated with cross-functional teams to create feature-rich applications, consuming APIs with tools like Axios for dynamic functionality.
- Translated design mockups into pixel-perfect web pages, fostered collaboration through code reviews, and contributed to process improvement.

### MINI & MORE

#### Frontend Developer

Beirut, Lebanon

August 2022 till September 2022

- Worked with a team of developers on multiple projects
- Created reusable components
- Transformed XD files into web pages
- Consumed API
- Used ReactJS for all projects

## PROJECTS

### OCEAN WAVES, Dubai, U.A.E, 2023

Created "oceanwavesuae," a visually appealing and responsive website using Next.js, Tailwind, and Hygraph technologies. The site features a curated collection of yachts, easy exploration, and comparison options, along with dedicated fishing package details and a WhatsApp booking system. I ensured security with SSL encryption, managed deployment, and optimized performance.

### CHECKOUT FOREX, Dubai, U.A.E, 2022

Developed "checkoutforex," a dynamic Next.js website with Tailwind CSS and hygraph integration. It offers a database of 200+ forex brokers for effortless comparison, secure user registration, login, and reviews, along with a rating system. The site includes an economic calendar, real-time financial news, and responsive design.
