WORK EXPERIENCE

Software Developer
Netways

01/2020 - Present   *Beirut, Lebanon*

Achievements/Tasks

- Developed many large-scale applications based on C#, ASP.NET / ASP.NET Core Web API's, SQL Server, MongoDB
- Worked on 5+ SQL database design projects. Improved speed to complete projects by 35% in 8 weeks
- Provided maintenance/bug fixing for 6+ .NET / .NET Core websites
- Worked with multiple software architectures such as N-tier and Microservices architecture
- Worked in an Agile team of .NET developers for a fast-paced software development firm to meet deadlines
- Reviewed code and provided feedback relative to best practices and improving performance significantly
- Adopted Azure DevOps practices such as Continuous Integration (CI) and Continuous Deployment (CD)in runtime with various tools like Git which resulted in 100% up-time

Junior Software Developer
Inmobiles

01/2018 - 12/2019   *Beirut, Lebanon*

Achievements/Tasks

- Analyzed, develop, diagnose troubleshoot, debug, test, and implement backend code by using Microsoft SQL Server and .NET
- Reviewed constantly the customer feedback and suggested ways to improve the processes and customer satisfaction
- Implemented Content Management Systems CMS backend code
- wrote complex queries and Stored Procedures in SQL Server/MySQL taking into consideration the performance
- Collaborated with system engineers, project managers, frontend and mobile developers to implement solutions
- Enhanced operational and developmental processes by 200% by being the first to develop a .NET core application

EDUCATION

Information Technology
Lebanese International University

2014 - 2017   *GPA 3.39*

SKILLS

ASP .NET   ASP .NET Core   SQL Server   Rest API

Git   Azure CI/CD   Docker   Microservices

Entity Framework   Redis   Dependency Injection DI

Solid Principles   RabbitMQ   Database Design

PERSONAL PROJECTS

Ethrai
- Description: Website, content management system, mobile for the Online learning platform (like Udemy) for KSA where users enroll in tutors courses.
- Tech used: Using Agile methodology to build restful Api's for the frontend of the content management system, website and the mobile using .NET Core Microservices architecture with MongoDB database, Docker integration for deployment, Redis for cache and RabbitMQ as a messaging protocol, deployment to Azure using CI/CD.
- Link : https://ethrai.sa

FANR UAE
- Description: Website and content management system for the UAE Federal Authority for Nuclear Regulation.
- Tech used: Using Agile methodology to build Restful API's for the front-end of the content management system and website using .NET Core, SQL Server and CRM Database, deployment to IIS using Azure CI/CD.
- Link: https://www.fanr.gov.ae

Etisalat Afghanistan
- Description: Website, content management system, mobile for Etisalat mobile operator in Afghanistan where users can subscribe/unsubscribe to services, transfer credits and more.
- Tech used: Building Restful API's for the front-end of the content management system and website using .NET Core and SQL Server Database with stored procedures.
- Link: https://rb.gy/31c1b4

Casino Du Liban
- Description: Website, content management system for the Lebanese Casino.
- Tech used: Building Restful API's for the frontend of the content management system and website using .NET Core and SQL Server Database with stored procedures.
