EXPERIENCE & TRAINING

Pixel38, Beirut — *Backend Engineer*

MAY 2019 - PRESENT

Led the development of an ecommerce platform by handling the database design, the GraphQL server, assisting in web app integration, and performing code reviews.

Implemented functionalities and integrations of web apps using React.js.

Assisted team members in development and understanding basic and core concepts.

Managed the development of multiple platforms through providing accurate estimates and planning deliverables.

SE Factory, Beirut — *Cycle #8 Graduate*

NOVEMBER 2018 - FEBRUARY 2019

Intensive full stack web development program covering cloud architecture, front-and back-end development, source control, and web application security over 14 weeks of lectures, workshops and projects.

EDUCATION

Islamic University Of Lebanon, Khalde — *B.E. in CCE*

OCTOBER 2013 - SEPTEMBER 2018

PROJECTS

Habitly — *Habit Tracking App*

Built an iOS app that tracks a user's habits and displays when a habit is due; developed the app using Swift and the backend using PHP Laravel.

PROFILE

A detail oriented developer with a knack for structuring clean & reusable code. I'm able to create clean solutions even with tools I'm inexperienced in.

Having a proven record of grasping the business requirements and defining the edge cases for each feature.

A joyful and easy going person that loves to help and share knowledge.

My motto: "There's always a better way"
