EDUCATION

Lebanese American University

Bachelor of Science in Computer Science

- CGPA: 3.76/4.0

Byblos, Lebanon

Aug 2019 - Dec 2022 (Expected)

Holberton School

Machine Learning and AI Specialization

Beirut, Lebanon

Jan 2022 - April 2022 (Expected)

EXPERIENCE

Mideast Data Systems

Cloud Consultant Trainee

- Part of the Tech Talent Program.
- Completed the Azure training for developers and AI professionals.
- Designed and implemented Microsoft cloud solutions.

Dubai, UAE

October 2021 - February 2022

InMind.ai

Software Engineer

- Integrated within InMind.ai's United Nations ESCWA Knowledge Hub (UNEKH) team.
- Implemented the admin page of an AngularJS application based on provided mockups.
- Used Agile methodologies for project management.

Sin El Fil, Lebanon

June 2021 - August 2021

TECHNICAL SKILLS

- Java, Python, C, C++, HTML/CSS, JavaScript
- Tensorflow, Keras, OpenCv, Scikit-learn, Numpy, Pandas, AngularJs, Microsoft Azure
- Linux, Git, GitHub, Trello

PROJECTS

Vision, Intelligence, Robotics and Automation (VIRA)

2021

Keras, Python, Labellmg

- The project tackles player detection, ball tracking, pose estimation and game statistic generation.

Heart Disease Detection

2022

Python, Scikit-Learn, Pandas, Numpy

- Implemented several machine learning algorithms (SVM, Decision Tree, Logistic Regression, Neural Networks etc.)

AI Painter

2021

Pyhton, OpenCv, Mediapipe

- Computer vision application that allows the user to paint on the screen in real-time with his index finger.

CERTIFICATIONS

- Fundamentals of Deep Learning, NVIDIA
- Neural Networks and Deep Learning, DeepLearning.AI
- Intro to Machine Learning, Kaggle
