WORK EXPERIENCE

Mobile Web Development Project

Spring 2021 (work in progress)

- Building a website and a mobile app, using React and React Native, that share environmental parameters on a dashboard.

Web Development Project

Fall 2020

- Built a website for an e-shop selling traditional Lebanese food.
- Implemented the first iteration of the front-end side using HTML, CSS, JS.
- Merged the code with the web application framework: Angular.
- Formatted website's responsive design with CSS Framework Bootstrap.
- Developed the server-side using NodeJS, Express and REST API
- Tested REST API routing using Postman.
- Stored products and clients' data in mongoDB
- Worked on the connection between the front-end and back-end of the platform.

Entelligence L.L.C

Summer 2020 (**Intern Data Analyst** from July to August 2020)

- Built a Profit & Loss Statement dashboard for a construction company on Power BI.
- Built an Internet Traffic chart for tracking employees' internet usage.
