Profile

Passionate Software Developer adept in bringing forth expertise in design, installation, testing and maintenance of software systems. Equipped with a diverse and promising skill-set.

Employment History

Software Developer, WebLeb

Jan 2021 — May 2021 Beirut

Organized and prioritized work to complete assignments in a timely, efficient manner working on three projects for different startups to empower Lebanese entrepreneurs.

- Relevant Technologies: JavaScript, HTML/CSS, SQL, Python.

Communication Intern, Sharekkna MENA

Jun 2021 — Aug 2021 Beirut

Sharekkna MENA is the first community empowering online platforms in the region. As an intern in the communication section of Sharekkna, I put in place a time-limited recruitment strategy.

Education

American University of Beirut, BS in Computer Science

Aug 2019 — May 2022 Beirut

Third-year computer science student at AUB. Awarded a United States Agency for International Development Scholarship (USAID) Higher Education (HES) Program.

- Relevant Coursework: Data Science, Database Management, Software Engineering, Web Development, Software Architecture, Linear Algebra, Advanced Algorithms and Data Structures.

Temple University, Study Abroad

Aug 2021 — Dec 2021 Philadelphia

Completed an exchange semester at Temple University, where I experienced life as a global citizen and underwent multiple research practice efforts under the guidance of Dr. Jie Wu. I was instructed to read, analyze, and present different research papers on Edge Technologies and Edge AI for Dr. Wu.

- Relevant Coursework: Machine Learning, Networks Architecture, Operating Systems, Artificial Intelligence.

U.S. Department of State Kennedy-Lugar Youth Exchange & Study (YES) Abroad Program, Student Ambassador

Aug 2017 — Jun 2018 Rockville, MD

Completed a merit-based scholarship for a full year study at Richard Montgomery H.S. in Rockville, MD

- Received the YES Certification Award as a Student Ambassador

Projects

ISTISHARA

Led a team in the development of a cross-native mobile application using Flutter, Firebase, Dart and Agora. Conducted and managed weekly and bi-weekly agile sprints. The application connects experts with everyday users, providing them with easy access to tailored consultations and solutions.

Play Store

Coordinated with a team of three to develop a website that emulates the functionality of Google Play Store using JavaScript, HTML/CSS, Django, MongoDB and NodeJS.

Inventory Tracker

Developed an inventory management system to track product life-cycles in retail using Python and MySQL.

Covid-19 Vaccination Campaign

📍 Beirut

A community service project targeting Covid-19 under registration in Lebanon. This Covid-19 project worked in collaboration with the Lebanese Ministry of Public Health to help the unfortunate in the community register to receive proper vaccinations.

Honors and Awards

AI Ready, Set, Hack Challenge Certification

Feb 2021 📍 ZAKA

Awarded by ZAKA AI Organization for successfully implementing a Hate Speech Detection Tool during the Ready, Set, Hack competition held during the AI Ready Academy program, sponsored by Microsoft.

- Relevant Technologies: Python, NumPy, Pandas

YES Program Award Certification

📍 U.S. Department of State (DOS) Kennedy-Lugar Youth Exchange & Study Abroad Program (YES)

The YES Abroad program provides merit-based scholarships for eligible high school students for full year study in a U.S. high school. Received YES Certification Award as a Student Ambassador from the YES 2017 – 2018 Program with the Richard Montgomery High School, Rockville, MD.
