PROFILE

Coding is a curious activity that I am passionate about, without restrictions on what tasks I could work on. New projects help me hone my coding skills, while always testing my perception of what I could achieve. Programming and engineering software are challenges that I am willing and most excited to take on.

HOBBIES

Learning Languages
Photography
Piano

LANGUAGES

English (Native)
Arabic (Native)
German (Upper Intermediate)
Korean (Beginner)

EDUCATION

Lebanese American University – BS in Computer Science (3.93 GPA)

September 2020 – Present

I have been an active participant in technical workshops and talks that supplement my strong algorithmic coding foundations.

Le Lycée National – Lebanese Baccalaureate in General Sciences

2008 – 2020

Graduated in the top 5 percent with honors.

VOLUNTEERING AND WORK EXPERIENCE

House on Mars – Tattoo Artist Apprentice

August 2020 – September 2020

Refined my artwork, learned about the equipment, as well as worked in sales.

Freelance Volunteer

August 2020

Worked to clean-up destroyed homes and ease the rebuilding process in the aftermath of the Beirut explosion.

FoodBlessed – Volunteer

2016 – 2018

Volunteered for weekly soup kitchens, as well as holiday events to better the community, feed the hungry, and provide services for those in need.
